

Hi! We're the X-Cats. We build people, not just robots! We spend our days not only perfecting a robot but also engineering futures.

We are a First Hall Of Fame team,

The X-Cats are very proud of our 100% graduation rate.

We are the only FIRST team that has 2 National Chairman Awards!

We are one of four of the founding FIRST Robotics teams that have been continually active since 1992.

Last year our mentor, Jeff Huspen, won the Woodie Flowers Award - The highest award a mentor can receive!

Your local robotics team, the X-Cats team 191, are planning to attend competitions this year. The Finger Lakes Regional at the RIT Gordon Field House and Championships in Cleveland, Ohio. You are invited to come join the team and get a first-hand FIRST Robotics experience.

In order to help our students continue to succeed, we need to increase our funding. With financial backing, the team will continue to make a difference in our students lives.

The students spend a lot of time fundraising for this program, but as mentors we would like to eliminate fundraising stress on our students.

If you would like to contribute to our program please go to our student-developed website at:
